OFFICERS OF THE TOWN OF HYDE PARK,

For the Year ending March 7, 1881.

SELECTMEN, AND SURVEYORS OF HIGHWAYS:

HENRY C. STARK, D. W. C. ROGERS. J. ELLERY PIPER.

ASSESSORS:

RANDOLPH P. MOSELEY, JOEL F. GOODWIN,
JOHN M. TWICHELL.

OVERSEERS OF THE POOR:

JOHN TERRY	term expires 1883.
JOEL F. GOODWIN	term expires 1882.
JOHN M. TWICHELL	term expires 1881.

BOARD OF HEALTH:

JOHN TERRY, JOEL F. GOODWIN, JOHN M. TWICHELL.

TOWN CLERK

HENRY B. TERRY.

TOWN TREASURER:

HENRY S. BUNTON.

COLLECTOR OF TAXES:

JOSEPH B. QUIMBY.

SCHOOL COMMITTEE:

EDWARD I. HUMPHREY	term expires 1883.
HENRY S. BUNTON	term expires 1883.
EDMUND DAVIS	term expires 1882.
HENRY H. SMITH	term expires 1882.
ANDREW WASHBURN	term expires 1881.
CHARLES G. CHICK	term expires 1881.

SINKING FUND COMMISSIONERS:

WILLIAM J. STUART	term expires 1883.
HENRY GREW	term expires 1882.
HENRY BLASDALE	term expires 1881.

AUDITORS:

A. G. MACOMBER, GEORGE B. KERR, ASA J. ADAMS.

CONSTABLES:

E. W. MOFFATT,	JAMES R. NUTE,	WM. H. CUMMINGER,
WM. JORDAN,	DANIEL O'CONNELL,	J. MATHEWSON,
P. J. DONLAN,		WM. P. McCOBB.

SEALER OF WEIGHTS AND MEASURES:

WILLIAM HEUSTIS.

FIRE DEPARTMENT:

WARREN W. HILTON, Chief Engineer.
C. L. FARNSWORTH AND RINALDO WILLIAMS, Assist. Engineers.

SELECTMEN'S REPORT.

FELLOW CITIZENS :—

The Board of Selectmen have the honor to present herewith for your consideration their report of the receipts and expenditures for the financial year ending January 31, 1881, in connection with the reports of the different departments of the Town Government, viz : School Committee, Town Clerk, Town Treasurer, Tax Collector, Commissioners of the Sinking Fund, Superintendent of Police, Engineers of the Fire Department, Trustees of the Public Library, and others.

In our expenditures we have endeavored to keep within the appropriations, so far as could be done in justice to the town and its citizens, ever keeping in mind that such an amount of present economy as is consistent with the future welfare is what was most desired ; and we invite your careful examination of the accounts hereto appended.

SCHOOLS.

The management of the schools and school buildings are under the supervision of the School Committee, with the exception of insurance, which was paid for from the incidental appropriation.

HIGHWAYS.

This appropriation was the only one over which this Board had any control, where the expenditures exceed the amount originally appropriated, which was in consequence of the bridges being in a much poorer condition than was anticipated. However, we can say to you that the bridges in Hyde Park are now in excellent condition, with the exception of one in the Clarendon Hills District, which would have been repaired were it not for the extreme early frost which prevented.

The Fairmount avenue bridge has been repaired at heavy cost. The sidewalks, being the same as when the bridge was first built, were found badly decayed, requiring new timbers and planking, new iron work, and worn out iron to be replaced by new. The iron frame-work was carefully inspected, set up, and painted under the floors. The carriage-way having been renewed the previous year, it was not deemed necessary to remove it at this time; and we feel that what has been done has been of the most thorough description.

The Central Park avenue bridge was also thoroughly repaired by planking the entire road-way, and strengthened by the insertion of new floor timbers. The Bridge street bridge may be said to have been rebuilt with the exception of the piers, which were found in good condition. The River street bridge at Readville has been rebuilt in the most thorough manner, and will last some years. This large outlay on bridges, which it would have been criminal to neglect, required so large an amount of this appropriation, that we asked for the transfer of the unexpended balance of the amount appropriated for State and County tax, which was granted. In regard to the streets and sidewalks, we must say that they are not in as good condition as we would like to see them, nor as they ought to be, but we have done the best we could with the means at hand, and think that, as a whole, they compare favorably with those of adjoining towns, but will need prompt attention the coming spring. We will take this occasion to say that, in our opinion, the very small average highway appropriation for the past three years has been inadequate. The streets, having received any considerable outlay in addition to the general repairs, were River and Business streets. River street, nearly all the way from Huntington avenue to the Boston line, required to be heavily gravelled to cover ashes used the previous year. Business street was raised by a fill of nearly three feet across the low land, with gravel from the church lot on Oak street, and is now in good condition for travel.

The worn state of the sidewalks called for large quantities of gravel, which have been applied where most needed, and placed in as good condition as the means at our command would warrant. These, with the general repairs, and the unusual amount of snow and ice, have entirely used up this appropriation.

RAILROAD CROSSINGS.

With reference to the long-needed crossings over the Boston and Providence railroad at Readville and Clarendon Hills, we have only to say that, by request of citizens immediately interested, this Board petitioned the County Commissioners, praying them to lay out and decree the same at grade. In the case of that at Clarendon Hills, our petition was dismissed, and in that of Readville, we have no notice as yet of any definite action on the part of said County Commissioners; but we still hope for the best, deeming it a matter of great importance to the town, and one in which all should feel a deep interest.

COASTING.

One of the by-laws of this town reads as follows :—

“Coasting on any of the public streets of the town is prohibited, except upon such streets as the selectmen shall designate each year by public notice.”

Considering the fact that, if permission is granted under this by-law, allowing coasting upon any of the public streets, the town becomes liable for any or all damages which might be caused by accident or otherwise, this Board did not care to assume so grave a responsibility. Therefore, notices were posted forbidding the same, notwithstanding which, parties disregarding this order, persisted in the violation of this by-law to such an extent as to cause great complaint on the part of many citizens, as well as people residing outside of our limits. And it coming to our knowledge that several persons had been knocked down, besides numerous other narrow escapes from injury, we felt obliged to interfere, and put a stop to coasting so far as possible, at least in the most dangerous places. And, as it is the opinion of many citizens that our by-laws should be revised, we respectfully call your attention to the same, suggesting a change in this one, either making it more peremptory, thereby relieving the selectmen of the responsibility of deciding whether coasting should be permitted or not, or taking some action looking to the provision of a safe and suitable place, where the younger portion of our community can enjoy this (to them) so much desired amusement.

POLICE.

In the organization of this department D. W. C. Rogers was appointed Superintendent of Police, and for particulars concerning police affairs we refer to his report, herewith enclosed.

FIRE DEPARTMENT.

We think it proper to call your especial attention to that part of the Engineer's report referring to a water supply, whole sections of the town being unprovided for in case of fire.

For information relative to other departments we refer to the several reports (herewith presented), under their respective heads.

Respectfully submitted,

HENRY C. STARK,
D. W. C. ROGERS,
J. ELLERY PIPER,

Selectmen of Hyde Park.

HYDE PARK, Mass., January 31, 1881.

REPORT OF THE SUPERINTENDENT OF POLICE

To the Board of Selectmen:—

Gentlemen :— Having received the appointment as Superintendent of the Hyde Park Police Department for the year ending March 7, 1881, I now have the honor to report. In so doing, justice to all would seem to demand more than a passing notice. In the light of previous experience, I considered that the best interests of the town called for the appointment of a police force, which should be properly organized, and the officers to be under pay ; instead of being appointed to serve without pay, as heretofore ; a change which I believed would serve to make the department more efficient, and more to be relied upon in time of need than has been the case in years gone by. Such a course appeared to me to be a necessity, as well as the desire of the citizens, plainly expressed by them in a more liberal appropriation than of late years. Therefore, I so advised your Board, who, acting upon this advice, appointed *nine* officers ; when, desiring to utilize, so far as practicable, the constabulary force in this department, *four* of the seven constables were assigned to the police service ; thus creating a department of *thirteen officers*, one being night watchman, all under rules and regulations adopted by your Board for their government. Twelve of these officers, being men necessarily engaged in other pursuits, were not expected to give much of their time, other than evenings, Sundays, holidays, &c., to police duty, (unless an emergency should require more), and circumstances having deprived the town of the services of one who had performed those duties as day officer for several years, it became necessary to employ another, who should be centrally located, and who could give his undivided attention to the business. Such an officer was found in William P. McCobb, who came to us with the best of recom-

commendations, having had several years experience in the Boston Police Department, where officers, high in rank, give him a character as an officer, and as a man, of which he may well feel proud. I most heartily bear testimony to the faithful and efficient manner in which he has performed all the duties of his office, under the most disagreeable and trying circumstances. The serving of precepts against parties for violation of the liquor laws; in most cases have come under his personal supervision, and in only one instance has he erred, and then but technically. Yet, such is the feeling the attempt to enforce this law has engendered against him, by this class of citizens, that, (taking advantage of his only error,) they, apparently in a spirit of retaliation, bring suit against him, alleging damages sustained, greatly magnifying the offence, &c. And I regret that such an element could find in this town, any one of prominence, who cared so little for our good name, and so far sympathized with them, as to take up a case of that nature, and prosecute it, in the way it was done in this case, against officers whose offence was so slight, and whose only purpose was to enforce the laws in duty to all, and with malice toward none. And although much has been done by Chief McCobb, and other officers, in this line of duty; the results are not what I at one time anticipated; but through no fault of the officers; the responsibility of that failure resting with a citizen entirely outside of, and beyond the control of this department.

This statement is necessarily made more in detail than it otherwise would have been, by reason of the manifest disposition on the part of a few disaffected ones, to falsify and misrepresent; using the press, as well as other means for so doing; notably among which was the "Boston Journal," and the local paper; both of which published statements anything but the truth, and which could have no other effect than to deceive the citizens more or less to the injury of this department. These parties apparently combining with a class who always oppose any and all police surveillance, and who have stubbornly resisted, and tried in every way to baffle all efforts made on the part of this department, to enforce the laws, and to maintain peace and good order in our town. And all who have been conversant with the duties devolving upon the officers during the past ten months, must be well aware of the many difficulties under which they have been obliged to labor. Nevertheless, I am glad to certify to the

general good conduct of the officers, and to the perfect harmony existing among the members of the present organization; and I feel safe in asserting that better order now prevails in our town than when this force was organized. And I trust that whoever has the honor to be at the head of this department another year, will try to improve on this administration, as I have tried to improve on the past.

I herewith append a record, showing in part the work of this department since June 1, 1880; although the duties to which the police have been called during that time are not, nor can they be, wholly recorded.

Whole number of arrests made on various charges 80

Classified as follows:—

For assault with attempt to commit rape	1
Assault and battery	13
Intoxication	16
Tramps	11
Assault on an officer	2
Larceny	3
Refusing to assist an officer	1
Insanity	1
Rescuing a prisoner	1
Common drunkard	1
Vagrancy	1
Adultery	1
Receiving stolen property	1

Twenty-seven complaints have been made against persons for violation of the liquor laws, on which fines and costs have been imposed by the courts and collected, (with several cases not yet disposed of,) amounting to \$470 02
 Fines and costs imposed on other cases 140 00

In addition to the above, 123 travellers have been entertained in the lock-up over night, being discharged the following day.

The record of a few arrests made previous to the organization of this department I am unable to give.

Number of officers now on the force, including the Chief of Police . 12

Respectfully submitted.

D. W. C. ROGERS,

Superintendent of Police.

ENGINEERS' REPORT.

ENGINEER'S ROOM, H. P. F. DEPARTMENT,
HYDE PARK, Feb. 1, 1881.

To the Honorable Board of Selectmen:—

GENTLEMEN:—In laying before you our annual report for the year ending January 31, 1881, it gives us much satisfaction to state that the department is in excellent condition, with one exception, and, as for members, never was better.

What is needed most in the department is more hose. We herewith give a statement of the hose we now have.

Kind.	Feet in Length.	When Purchased.	Condition.
Cotton.	1,300	1879	Excellent.
Leather.	1,000	1876	Poor.
"	600	1875	Good.
"	800	1874	Poor.
"	800	1872	Very poor.
"	500	Previous to 1872.	Almost worthless.

All the leather hose, except the six hundred feet bought in 1875, is unreliable, and this will become so soon.

At almost every fire our efficiency is greatly lessened by the bursting of hose. It will be seen that we have only 1900 feet of reliable hose in the department, and we earnestly request the town to appropriate a sum of money for the purchase of hose. We would recommend cotton hose in preference to any other.

We have been obliged to exceed the appropriation some \$450. In our estimation, the department cannot be kept up to its present standard less than \$3,800 per annum. It must be kept in mind that our steamers are getting old, and re-

quire more repairing every year. In a short time they will require new boilers ; but in our judgment they are good for another year at least.

We have now in the department two steamers, two hose carriages, one hook and ladder carriage, all in good repair ; and hose as above described.

We earnestly hope that the town will provide a water supply for fire purposes in Fairmount, Sunnyside, and Clarendon Hills districts.

We will take this opportunity to heartily thank each and every member of the department, for their gentlemanly conduct and prompt response to every call.

You will find with this report a list of alarms and fires, also the officers and number of men belonging to each company.

WARREN W. HILTON,

Chief Engineer.

C. L. FARNSWORTH,

RINALDO WILLIAMS,

Assistant Engineers.

LIST OF ALARMS AND FIRES ATTENDED DURING THE YEAR, JAN. 31st, 1881.

DATE.	HOW OCCUPIED.	OWNER.	CAUSE.	LOCATION.	LOSS.	INSURANCE.	REMARKS.

THE BOARD OF HEALTH.

The town has been free from epidemic. Various nuisances have been abated, as far as practicable.

REPORT OF OVERSEERS OF THE POOR.

The past year presents nothing specially noticeable, except that there has been comparative prosperity among our poorer classes. Various industries in the town furnish employment for all who are disposed to work. The tramp laws have been efficient in helping us to get rid of that nuisance.

It has been the aim of the Overseers to relieve the destitute, to see that no sufferer should be deprived of aid, and, at the same time, to protect the town from imposition.

The town has taken possession of the "Happy Valley," and has repaired and made tenantable one of the houses. It has also moved one of the families supported by the town, which will diminish the expense of their support. The Board are of the opinion that it would be for the interest of the town to make still further improvements, by repairing one or more of the buildings, as we are liable at any time to want them.

The whole number of persons who have received aid is 174; of this number 132 are children.

The following is a detailed statement of expenses of the poor department. The amount of aid rendered various persons, is set against their names: —

The Town Clerk requests information of any omission or error in the above tables, in order that the registration may be as complete as possible.

Respectfully submitted,

HENRY B. TERRY,

Town Clerk.

THE NINTH ANNUAL REPORT

OF THE

HYDE PARK LIBRARY BOARD.

The Board of Trustees of the Hyde Park Public Library herewith present their Ninth Annual Report. For several years past there has been little they could say in their Annual Reports, except to recapitulate the various depressing circumstances under which they have endeavored to conduct the affairs of the institution committed to their charge. Deprived of the control of the library funds, from the greater part of which no interest was received, they could add but few new books to its shelves. Unwilling to ask the town, during the period of its business and financial depression, for a larger appropriation than was barely sufficient to keep the doors of the Library open, not only could they make no improvements, but were compelled to see the Library gradually deteriorate in their hands. Those not conversant with the details of library management, know little of the constant and increasing wear and tear of an extensive circulation of books, and the consequent expense of keeping them in a condition suitable for use. But the greatest want of the Library was a new Catalogue. Nearly three thousand books had been purchased since the publication of the original Catalogue, which were practically inaccessible to the public.

The advent of better times seemed to warrant the Trustees in asking the town, in their last Annual Report, to adopt some measures of relief, whereby the Library might be put in a condition the better to fulfil its mission in the community. The town generously responded to this call, and voted liberal funds both for the publication of a new Catalogue, and the purchase of new books.

The preparation of the Catalogue was assigned to a special committee, who have faithfully performed the work, and the manuscript is now in the hands of the printer, and the book will soon be ready for distribution.* The plan adopted by the Board is simple and inexpensive. They have omitted the useless signs and characters that largely encumbered the old book, and which were of no earthly use to the patrons of the Library. The plan, briefly stated, is as follows :—

Each book, alphabetically arranged, is entered once under its title. If the work of a standard or voluminous author, it is entered again under the name of the author. Unimportant works, or those of authors little known, are not so entered a second time. It is here that the greatest saving is made, both in the size of the book and the consequent expense. There is a third but limited department in which standard works are entered under the name of the subject to which they belong ; as, for instance, History, Poetry, Fiction, etc.

The new Catalogue, although containing double the number of books, will cost only half as much, and, the Trustees confidently believe, will be twice as satisfactory as the old. The work of its preparation has been slow, that it may be accurate. It will only be necessary in the future, when new books shall have accumulated in a sufficient number, to print a few leaves, uniform in size and style with the main work, as a supplement.

* Since the preparation of this report news has come that the office where the Catalogue was being printed has been burned to the ground. It is understood that the manuscript copy, though somewhat damaged, was not destroyed. Of course its publication will be delayed, but how much cannot be told at this writing. While the Trustees regret any further delay in the publication of the Catalogue, chiefly on account of the eagerness, and even impatience of the people to see it, they must confess to a regret that is also personal (this is said on the sole responsibility of the writer), for they have taken no little pride in their year's work, and expected, before its close, to make a very handsome showing of the same to the people.

With the advent of the new Catalogue the Library will enter upon a new career of usefulness.

It is the earnest hope of the Trustees that citizens will avail themselves more than they ever have done, of the advantages, both for entertainment and instruction, which the Library will afford them, and for which they tax themselves so liberally. A well-assorted public library is a great public good. Let our citizens not forget that the *best books in the world lie right in their midst*, as free to them as the air they breathe.

About 450 new books have been purchased during the year, and will be ready for distribution with the new Catalogue. New shelves have been erected for their accommodation in the little room adjoining the Library.

The trustees desire to call special attention to the Reading Room connected with the Library. It may not be known to many that the leading periodicals of the day lie upon its tables for public use. Hoping that greater interest in this department may be awakened, and the number of visitors increased, a list of these periodicals is given below. In response to complaints of the insufficiency of light in the evening in this room, a special committee has been empowered to rearrange or increase the number of lights so as to make the room attractive and satisfactory to its patrons.

LIST OF PERIODICALS.

Daily.—The Boston Evening Transcript; the Boston Evening Journal.

Semi-Weekly.—The New York Tribune.

Weekly.—The Scientific American; the Dedham Transcript; the Norfolk County Gazette; Harper's Weekly; the Youth's Companion; Harper's Young People; Littell's Living Age.

Monthly.—Harper's Magazine; Scribner's Magazine; Atlantic Monthly; Popular Science Monthly; Magazine of American History; St. Nicholas; Wide Awake; the North American Review; the Art Amateur.

It will be remembered that a little more than a year ago Theodore D. Weld, Esq., who had been Chairman of the Board of Trustees since its organization, in 1872, felt compelled, for imperative personal reasons, to tender his resignation. In the last Annual Report allusion was made to his

zeal and fidelity during his term of office; but no brief report like that or this can give a just conception of the value of his services, of the time, thought and energy which he devoted to the enterprise on which he had set his heart—the founding of a Free Public Library in the community in which he dwelt. It is enough for the present purpose to call to mind that his were the inspiring words that first awakened public interest in this enterprise; that his personal solicitations secured most of the funds that gave it a successful beginning; and that chiefly through his untiring zeal and wise counsels it has developed into a permanent and influential institution in our midst.

It is not necessary to say to those who know Mr. Weld that he has been actuated by no selfish motive, has had neither thought of praise nor hope of reward, but rather that he has been inspired by a simple, earnest desire and purpose to subserve the public good.

Perhaps the most popular expression of gratitude in such cases is to give to public institutions the names of their founders.

The Trustees, therefore, desire to commend to the consideration of the citizens of Hyde Park the propriety of giving to their Public Library the name of him who, more than any other, may be called its founder.

DONATIONS.

Books and publications have been presented to the Library during the year as follows:—

A. E. Giles	3 volumes
Mrs. H. W. Bidwell	10 “
E. L. Pierce	13 “
E. A. Aldrich	2 “
Theodore D. Weld (Memorials of Mrs. A. G. Weld)		2 “
Mrs. C. W. W. Wellington	10 “
Mrs. E. S. Slocomb	18 “
Miss Peabody	3 “

There have also been presented seven Government publications, and reports from the Dedham, Brookline and Providence libraries.

BY - LAWS.

At a meeting of the legal voters of the town of Hyde Park, held August 2, 1875, it was voted to adopt the following By-Laws, to wit: —

NOTIFICATION OF TOWN MEETING.

Every town meeting shall be notified by posting copies of the warrant calling the same, in ten public places in the town, seven days, at least, before the day appointed for said meeting; and a copy of the warrant shall be published in the local newspapers of the town once, at least, before said meeting.

ANNUAL TOWN MEETING.

The annual town meeting shall be held on the first Monday of March of each year. The meeting shall be opened at eight o'clock A.M., and the polls shall be kept open until sunset.

RULES FOR THE GOVERNMENT OF TOWN MEETINGS.

1. — Every meeting shall be opened with prayer.
2. — All questions submitted for the consideration of the town, involving the expenditure of money, shall be in writing.
3. — No vote fixing the period for closing a ballot shall be reconsidered after such ballot shall have commenced; but it may be in order to extend the period without such reconsideration.
4. — When a question is under debate, motions shall be received to adjourn, to lay on the table, the previous question, to postpone to a certain time, to postpone indefinitely, to commit, or to amend; which several motions shall have precedence in the order in which they are herein arranged.
5. — The powers and duties of the presiding officer, not especially provided for by law, or by the foregoing rules, shall be determined by the rules of practice contained in "Cushing's Manual," so far as they are adapted to the condition and powers of the town.
6. — No vote shall be reconsidered except upon a motion made within one hour after such vote has passed, unless such reconsideration is ordered by a vote of two-thirds of the voters present.

FINANCIAL YEAR.

The financial year of the town shall begin with the first day of February in each year, and end on the thirty-first day of the following January.

MEETINGS OF TOWN OFFICERS.

The selectmen, overseers of the poor, board of health, surveyors of highways, and school committee shall post in some conspicuous place at their official rooms, a notice of the times of their respective meetings, and shall also give notice of the same through the local newspapers.

COLLECTION OF TAXES.

1. — The assessment of taxes shall be completed, and a list of the same delivered to the collector, on or before the first day of August of each year.

2. — All taxes which may be assessed, if paid on or before the first day of October next after the assessment, shall be entitled to such discount as the town shall vote at its annual meeting. All persons who may be assessed a poll-tax only, shall pay the same on demand. All taxes shall be paid in full on or before the first day of November next following the assessment of said taxes, and if not so paid, interest shall be paid at a rate not exceeding twelve per cent. per annum, if so voted by the town.

3. — The assessors shall annually, on or before the first day of July, post a copy of the list of poll-tax payers on the outside of the building containing their office.

4. — It shall be the duty of the selectmen to insert the following article in the warrant calling the annual meeting, viz: "To see what discount shall be allowed on all taxes paid on or before the first day of October next."

DUTIES OF THE AUDITORS.

1. — The auditors shall examine the accounts of the selectmen, school committee, treasurer, collector, trustees of the public library, and the custodian of the town hall, and all other officers or committees entrusted with the expenditure of money, and shall certify as to the correctness of the same in the printed annual report.

2. — Before certifying to the accounts of the selectmen and school committee, they shall examine the original bills and pay rolls, and ascertain that they are correct and properly receipted.

3. — Before certifying to the accounts of the treasurer, they shall examine his cash-book, wherein shall be entered his receipts and payments, as they occur from day to day, shall see that he has paid out no moneys except on proper vouchers, carefully examine all payments for interest, and see that the funds on hand are intact.

4. — Before certifying to the collector's accounts, they shall examine his cash-book, showing the amounts collected from day to day, and showing when the same were paid over to the treasurer; shall see that he has collected interest on all taxes overdue, and shall see a complete list of abatements, and also a list of unpaid taxes.

5. — They shall see that the accounts of the trustees of the public library, and the custodian of the town hall, are kept in a correct manner, and that all payments are accompanied with proper vouchers.

6. — The auditors shall have access to the accounts of the several officers at such stated times as said auditors shall deem for the interest of the town, and shall audit the accounts of the treasurer and collector quarterly.

UNEXPENDED APPROPRIATIONS.

All unexpended balances of the regular annual appropriations shall, at the close of each financial year, be paid into the sinking fund to be used in extinguishing the town debt.

MEASURERS OF WOOD AND BARK.

It shall be the duty of the selectmen to appoint measurers of wood and bark.

REMOVAL OF BUILDINGS AND OBSTRUCTION OF HIGHWAYS.

1. — No building shall be removed over a public street without the written permission of the selectmen.

2. — The owner of such building, or the person or persons removing the same, shall pay the town all damages, costs, and expenses for which the town may be liable or compelled to pay by reason of said street being obstructed or encumbered.

3. — No person shall place, or cause to be placed, in any of the public streets, sidewalks, lands, or upon any of the common lands of the town, without a written license from the selectmen, any manure dirt, gravel, stones, building materials, wood, coal, barrels, boxes, merchandise, or any rubbish of any kind whatever, and suffer the same to remain for twenty-four hours.

4. — All persons who shall obstruct the sidewalks or streets of the town to the molestation of travelers shall be subject to arrest as offenders against the public peace. Constables and police officers are instructed to enforce this rule rigidly.

5. — No person shall ride or drive a horse in any street in the town at a rate faster than eight miles an hour.

6. — No person shall play at ball, or throw balls, snow-balls, or stones, or discharge any gun or fire-arm, or make any bonfires or other fires, in any of the streets or public places in the town.

COASTING.

Coasting on any of the public streets of the town is prohibited, except upon such streets as the selectmen shall designate each year by public notice.

PASTURING OF CATTLE OR OTHER ANIMALS ON STREETS OR WAYS.

1. — The town hereby adopts and avails itself of the provisions of chapter 45 of the general statutes, relating to the pasturing of cattle or other animals in streets or ways.

2. — No person shall be allowed to pasture any cattle, goat, or other animal upon any street or way in said town, either with or without a keeper, except within the limits of such way adjoining his own premises, and field drivers are instructed to enforce this by-law.

TRUANCY.

The proper officers of the town shall rigidly enforce the provisions of the truant laws of the commonwealth.

JUNK DEALERS.

Every keeper of a shop for the purchase, sale, or barter of junk, old metals, or second-hand articles within the limits of this town shall keep a book, in which shall be written at the time of every purchase of any such articles a description of the article or articles purchased, the name, age, and residence of the person from whom, and the day and hour when such purchase was made; such book shall at all times be open to the inspection of the selectmen, and any person by them authorized to make such inspection; every keeper of such shop shall put in some suitable and conspicuous place on his shop a sign, having his name and occupation legibly inscribed thereon in large letters; such shop, and all articles of merchandise therein, may be examined

by the mayor and alderman of any city, or the selectmen of any town, or by any person by them respectively authorized to make such examination, at all times; no keeper of such shop shall, directly or indirectly, either purchase or receive by way of barter or exchange any of the articles aforesaid, of any minor or apprentice, knowing or having reason to believe him to be such; and no article purchased or received shall be sold until a period of at least one week from the date of its purchase or receipt shall have elapsed.

The selectmen are required to incorporate the above by-laws in every license which shall be granted for dealing in the articles therein mentioned, and shall revoke the same on reasonable proof of any violation thereof.

LIST OF TAX-PAYERS.

The names of all persons paying a tax on real or personal property shall be published annually in the town report, together with the amount of tax assessed upon each, and whether the same is paid or unpaid.

PUBLICATION OF BY-LAWS.

The selectmen shall publish these by-laws annually in connection with the town report.

PENALTIES UNDER THE BY-LAWS.

Every violation of any of the foregoing by-laws shall be punished by a fine of not less than one dollar nor more than twenty dollars, to be recovered by complaint before any trial justice in the County of Norfolk, or any other court having jurisdiction.

PROSECUTION UNDER THE BY-LAWS.

Any citizen may, and the selectmen and constable shall, prosecute every violation of any of the foregoing by-laws, by complaint before any trial justice in the County of Norfolk, or any other court having jurisdiction.

REPEAL OF OLD BY-LAWS.

All former by-laws of the town are repealed on approval of these by-laws, as provided for in the following section:—

BY-LAWS, WHEN TO TAKE EFFECT.

These by-laws shall go into effect from and after their passage and their approval by the superior court within and for the County of Norfolk.

Attest:

HENRY B. TERRY, *Town Clerk.*

NORFOLK, ss. Superior Court, September Term, to wit: October 5, 1875. The foregoing By-Laws are approved. By the Court.

ERASTUS WORTHINGTON, *Clerk,*

A true copy. Attest:

ERASTUS WORTHINGTON, *Clerk.*

At a meeting of the legal voters of the town of Hyde Park, Mass., held March 29th, 1877, it was voted to so alter the By-Laws of this town, that the Section entitled,

UNEXPENDED APPROPRIATIONS,

Shall, instead of the present reading, read as follows, to wit:

“Any unexpended balance of the regular annual appropriations, excepting the school appropriations, shall at the close of each financial year, be paid into the sinking fund, to be used in extinguishing the town debt.”

And at a meeting held April 10th, 1877, by adjournment of the above-mentioned meeting, it was voted to adopt the following

BY-LAWS IN RELATION TO THE PREVENTION OF FIRES, TO WIT :

It shall be the duty of every person who shall commence the erection of any building within the town of Hyde Park to notify the Board of Engineers thereof before he shall commence building the chimneys therein.

All chimneys in wooden buildings shall be built of brick, stone, or other fire-proof non-conducting material. All brick flues shall be smoothly plastered *inside* with mortar from top to bottom and *outside below the roofing*.

In no case shall chimneys rest upon any flooring without a footing of masonry or iron supported by iron beams, having a secure bearing of masonry or iron at either end.

All flues shall be topped out at least four feet above the roof of the building to which they belong. The brick topping out of chimneys shall not have more than two inches projection, unless covered by a cap of metal or stone properly secured.

Hearths of fireplaces or grates shall be laid upon brick or other trimmer arches, or upon bars of iron supporting a bed of brick-work.

No wood-work of any kind shall be placed at a less distance than one inch from the outside brick-work of any flue. In no case shall a nail be driven into the masonry of any flue.

No wood-work shall be placed at a less distance than one inch from any tin or other metal flue or flues, pipe or pipes, used or intended to be used to convey heated air or steam in any building, unless such flues or pipes shall be cased with metal, leaving a free circulation of air all around the same.

No smoke-pipe in any such wooden or frame building shall hereafter enter any flue, unless the said pipe shall be at least twelve inches from either the floors or ceiling; and in all cases where smoke-pipes pass through stud or wooden partitions of any kind, whether the same be plastered or not, they shall be guarded by either a double collar of metal, with at least four inches of air space and holes for ventilation or by a soap-stone ring, not less than three inches in thickness and extending through the partition.

The Board of Engineers shall examine into all shops and other places where shavings or other combustible material may be deposited or collected, and at all times be vigilant in the removal of the same, whenever, in the opinion of any majority of them, the same may be dangerous to the security of the town from fires; and direct the owner, tenant, or occupant of said shops, or other places, to remove the same; and in case such owner, tenant, or occupant's refusal or neglect so to do, to cause the same to be removed at the expense of such owner, tenant, or occupant.

It shall also be the duty of said Engineers to take cognizance of all buildings in the town in which any steam engine shall be used, and of all buildings in the town in process of erection or alteration, and to make a record of such thereof as in their judgment may from any cause be dangerous, and report the same to the Selectmen forthwith. And whenever in the opinion of a majority of the Board of Engineers, any chimney, hearth, oven, stove, stovepipe, fire-frame or other fixture, or any camphene or other explosive or inflammable fluid or material, or whatever else may give just cause of alarm, should be altered, repaired or removed, they, the said Engineers, shall forthwith notify and direct the owner, tenant or occupant of the premises upon which the same are situated, to alter, repair or remove the same, as the said Engineers shall direct. And in case such tenant, owner or occupant shall refuse or neglect so to do, the said Engineers shall cause the same to be removed, altered or repaired at the expense of such owner, tenant, or occupant, who shall also be liable to a penalty, not exceeding fifty dollars for such neglect or refusal. And any person who shall obstruct the Engineers, or any of them, in carrying out the provisions of this section, shall be liable to a penalty not exceeding fifty dollars.

The removal, extension or essential alteration of any building; also, the rebuilding or repairing of any building which has been partially destroyed by fire, shall be subject to the same restrictions which are imposed by the foregoing By-laws on the erection of buildings.

PENALTIES UNDER THE BY-LAWS.

Every violation of any of the foregoing By-laws shall be punished by a fine not exceeding fifty dollars, to be recovered by a complaint before any trial justice in the county of Norfolk or any other court having jurisdiction.

PROSECUTION UNDER THE BY-LAWS.

Any citizen may, and the Board of Engineers and constables, shall, after five days notice in writing to the violator thereof, which notice shall contain a definite statement of the matter complained of, prosecute every violation of any of the foregoing By-laws, by complaint before any trial justice in the county of Norfolk or any other court.

BY-LAWS WHEN TO TAKE EFFECT.

These By-laws shall go into effect upon their passage and approval by the superior court within and for the county of Norfolk.

Attest:

HENRY B. TERRY, *Town Clerk.*

NORFOLK, s.s. Superior Court, April Term, 1877. The foregoing By-laws relating to fires, and also relating to unexpended balances are approved by the court.

JOHN W. BACON, *J. S. C.*

REPORT OF SCHOOL COMMITTEE.

FOR SCHOOL YEAR ENDING DECEMBER 31, 1880.

To the Citizens of Hyde Park: —

As required by law and custom the following is respectfully submitted as their annual report by the School Committee of this town.

ORGANIZATION.

At the first meeting of the year the following sub-committees were appointed by the Chairman with the unanimous approval of the Board, to have special charge and superintendence of the schools designated, viz : — High School, H. H. Smith, E. Davis, A. Washburn; Blake School, Andrew Washburn, H. S. Bunton; Damon School, Edmund Davis, H. H. Smith; Grew School, C. G. Chick, E. I. Humphrey; Greenwood School, H. S. Bunton, C. G. Chick, Everett Primary, E. I. Humphrey.

When the Advanced Grammar School was organized later in the year it was put in special charge of the High School sub-committee, and, when the evening schools were opened Mr. E. I. Humphrey took charge of them. Each sub-committee has a report of the schools in charge; which report is hereto appended.

In regard to the condition and general success of our schools, fortunately your Committee can refer to outside testimony, as given by Mr. Walton, an agent of the State Board of Education, in his report of an examination of the schools of Norfolk County.

In this report the schools of Hyde Park are placed third in rank of excellence.

When we consider that the character of this examination was such as to give considerable advantage to the course of

study followed in one of the towns taking higher rank, the standing of Hyde Park schools must be a source of satisfaction to this community. Several studies were omitted from the examination, such as grammar, history, drawing, music, and oral spelling, which receive here considerable time and attention, but are omitted from the course of study referred to, and the time occupied upon the branches represented in the examination. Had the examination included all the studies of our course the result would doubtless have been even more favorable to Hyde Park schools.

CHANGES OF TEACHERS.

The policy of the Committee has been to make as few changes of teachers as possible. The few, that have occurred, have been forced upon us by resignations.

MUSIC.

The services of Mr. H. J. Whittemore has been continued during the past year as teacher of vocal music with gratifying success.

SALARIES.

Last year the Committee was forced to reduce the salaries of teachers, and we are glad to state, that the liberality of the town this year, enabled us to raise the pay of teachers to the former amount.

CHANGES IN BOOKS AND COURSE OF STUDY.

For some time the printed course of study has differed considerably from the practice in the schools. It has been gradually outgrown. The Committee, therefore, were unanimous, that, to prevent confusion, the written rule should be made to correspond to the practice, and that perhaps some few new features might with profit be introduced. The result has been greater changes than at first contemplated, and either directly or indirectly led to several changes in textbooks. The changes of books have been little or no expense to the town.

DR. DENNETT'S EXAMINATION.

The report of Dr. W. S. Dennett, oculist, of Boston, which is in the hands of most of the parents of the town, has elicited quite extensive and very favorable criticism as being

a report of the first attempt to make useful to the pupils, as well as to science, examinations of this sort. Since the edition of the report was exhausted application for a large number of copies has been received for distribution both in this country and in Europe. The matter is to be followed up and the attempt made to protect, and preserve to the youth of our schools the full use of that principal instrument used in acquiring knowledge, the eye.

VENTILATION.

Notwithstanding all that has been said upon this subject our schools still suffer for lack of pure air. The air in the school-rooms is, as a rule, more vitiated, and unhealthy than in the factories of this town.

The theory of ventilation requires us to ventilate, in winter, from the lower part of the room, and, in summer, from the upper part. To force the ventilation into uniform effectiveness, in some inexpensive way, without sudden changes, or dangerous drafts, is at present an unsolved problem.

All the small contrivances for improving ventilation have been exhausted. Each has given some aid; still the result is not all that could be desired.

SUPERVISION AND INDIVIDUALITY.

From many quarters, and with much vehemence, we have continually, in lectures, and public prints, set forth the desirableness, and necessity of efficient school supervision. It may be called the craze of the hour. Even small towns of a few hundred inhabitants are employing a superintendent of schools at very considerable expense.

There is in the minds of many thinking men, an idea that the schools of to-day are not doing as good work as in the past; that they are less thorough, and that pupils of the same age are not equally advanced. The remedy proposed by the school men is stricter supervision, by some person devoting to it entire time and attention; who shall think, and arrange, and plan for all teachers and schools.

No doubt this tends to a very complex completeness of system, which might be further perfected by adding county superintendents and a state superintendent. And, no doubt, to an outsider inspecting it, the system would seem very grand and complete; and that, likewise, his attention would

be wholly occupied with the system, and that he would never catch a glimpse of the teachers struggling, nor the pupils buried under it.

Sufficient supervision to give oneness to the work of the schools of a town or city is necessary. But is it not possible that the remedy for the assumed lack of success of schools in populous centers lies in a different direction, and that there is a chance of over-supervision, — of reducing teachers to mere machines, and burying their enthusiasm under a mass of laborious statistics and reports, which are expected to prove that the Superintendent has conceived some wonderful plan likely to revolutionize the whole educational system? Is there not danger that excessive supervision will prevent individual development of teachers, and take from them the opportunity, and the enthusiasm of accomplishing required results by plans suited to their own genius and ability?

Select ten teachers of marked ability, and you will surely find ten persons of marked difference of method. Put these teachers under a strict Superintendent, and they will be annoyed and fretted, will lose enthusiasm, and fail of the highest success. It may be doubted whether Arnold of Rugby would ever have become famous, had fate assigned him to the mastership of a school in some of the towns in this vicinity.

The American people are prone to believe in machine work, and to think a machine can be made that will accomplish anything. But brain power is not made from without. It is a growth, a development from within, an individual self-assertion over surroundings. Rules and systems, and organizations are in themselves hindrances and obstructions to individual life.

An army, organized under strict regulations may be a grand affair; but, to the mass of individuals who compose it, it is likely to bring a dwarfing of mental and moral power.

There is danger that we are making a mistake adding to our system and organization, instead of endeavoring to take each separate pupil and train him; and, taking advantage of all his peculiarities, heredity and environments, make the most of that one boy.

An army does not exist for the benefit of its soldiers; but a school, with all its connections, has no right to exist except for the mental and moral progress and development of its individual pupils.

You may notice any day from the school palaces of our cities lads passing out with stealthy, timid step, through the back basement, by the back door, into the back alley-way and so into a side street. You might suppose them beggar children; but, no,—they are the little men for whom the palace was erected.

Said a parent to me a few days ago, “I have taken my son from the public school, and sent him to a private institution. Everything was very fine, but among so many, the individual pupil suffers.”

The individual is suffering in all our schools, and town or county or state Superintendents will more likely increase than lessen the evil; for the more outside plans and whims and caprices teachers have to follow, the less likely are they to develop their own individuality, and study and teach the individual pupils of their classes. *Greater individuality of instruction* is needed in all our schools.

In the great school, which is the world, our Creator has so ordered it that each one is trained and developed as if all other men, and the entire creation were for the sole study and instruction of that one. Each one is *the one* human being for whom all else exists. And, at the last, each soul “stands *alone* before God.”

Nor is Christianity less individual than Deism. Christian enthusiasm rises highest at the thought, “Jesus loves *me*.” The *one* lost sheep monopolizes the Shepherd’s care; and in His mystic temple the “living stones” are unlike and individual.

Let schoolmen return to first principles, and not sacrifice the pupil to the school, but educate individuals.

On behalf of the Committee,

A. WASHBURN, *Chairman*.

ADVANCED GRAMMAR CLASS.

Miss Estelle M. Hatch, Teacher.

During the summer vacation, the Board came unanimously to the conclusion, that another year should be added to the Grammar School course. This decision was made after a full and careful consideration of the whole question. The forming of such a class was suggested in the High School report of last year. The most, if not all, of the teachers in town, upon being consulted on the subject, expressed their opinions decidedly in favor of it; and superadded to these reasons, was the strong logic of a petition duly signed by many of our heaviest tax-payers and properly presented before the Board.

All scholars that successfully pass the final examination of the highest class in any one of the grammar schools in town, are entitled to admission to this school. Diplomas are to be awarded only to those scholars in the grammar schools, that shall have satisfactorily completed the course of study prescribed for this class.

Induced, in part, by motives of economy, and, in part, by the belief, that scholars of this grade especially need the best refining influences, the Board deemed it wise to place this school under the care of a first-class *female* teacher.

It was also decided to locate the school in the High School building, where it might be, to a certain limited extent, under the supervision of the principal of the High School, and enjoy the additional advantage of a central location.

Out of the nine candidates who presented themselves for examination, Miss Hatch was selected to take charge of this class. On the sixth day of September—at the beginning of the current school year—the school was opened. Its daily sessions, like those of the High School, are from 9 A. M. to 2 P. M. The number of scholars on the first day, was sixteen. The whole number has been seventeen; the average number, fifteen. One scholar has been obliged, by reason of illness, to leave school. The graduates from the grammar schools, in the class of '80, were permitted to enter either this school or the High School, at their option; but it is very clear, there can be, in the future, no such option, and so the probability is, that the coming class in this school will number at least twice as many scholars as the present one.

Miss Hatch is very finely qualified to fill the position she occupies, and is succeeding admirably in her work. The scholars are making commendable progress in all their studies. In a word, the school appears to be a decided success.

The course of study, prescribed for this school, includes reading, spelling, writing, drawing, commercial arithmetic, English grammar, physical geography, physiology and hygiene, and is designed to embrace those elementary branches of learning, that are believed to be of the highest utility and of the greatest practical value. And so every scholar that shall, hereafter, become entitled to admission to this class, should be earnestly encouraged by all who have the warmest interest in his welfare, to complete, at least, the entire grammar school course, before engaging in the active duties of his life-work.

HENRY HYDE SMITH,
ANDREW WASHBURN,
EDMUND DAVIS,

Local Committee.

BLAKE SCHOOL.

ORGANIZATION.

Master. — Henry F. Howard.

Teachers. — Hattie M. H. Darling, Annie L. Howe, Jennie S. Hammond, Helen A. Perry, Ella J. Stocking.

The general condition of the school is highly satisfactory. The school work is wrought with comparative little friction, and the relations between parents, teachers and pupils generally pleasant.

The resignations of Miss Eddy in the Tenth Class and Miss J. G. Tilton, in the Ninth, tendered at the close of the summer term were accepted with regret by the committee.

Mrs. M. H. Cushing was transferred from the Ninth Class of the Greenwood to the Ninth class of the Blake, and taught with excellent results until compelled by ill health to resign the position.

Miss Darling and Miss Stocking were appointed to the vacancies, and are each rendering effective and acceptable service.

In the other classes the same teachers as last year continue, and add new success with each year's additional experience.

At the close of the summer term, the attempt was made by the teachers to change the usual exhibition into a partial examination, calculated to give some idea of the character and quality of the regular school work. This seems a movement in the right direction, approved both by parents and the committee.

Your committee will watch with interest the practical working of the new plan requiring the highest class of the different grammar schools to pass to the Advanced Grammar School and graduate from thence. The grammar school is emphatically the school of the people, and no pains should be spared to build it up and to add to its interest, efficiency and influence.

ANDREW WASHBURN,
HENRY S. BUNTON,

Local Committee.

DAMON SCHOOL.

Master: — Edward W. Cross.

Teachers: — Lizzie D. Bunker, Julia E. Donovan, Sarah A. Crosby, Alice B. White, Mary E. Bowen, Margaret E. Bertram.

The condition of the buildings and grounds is good, the repairs and improvements made last year having been so thoroughly done as to necessitate very little expenditure for such purposes this year. The equipment of the school as respects heating apparatus, ventilation, furniture and the innumerable other things which the modern school seems to require is also, generally speaking, good. One of the furnaces does not fully meet the demands made upon it during extreme cold weather, and will, probably, need extensive repairs, or, perhaps, removal altogether during the present year. Unquestionably, a great deal of heat is lost or wasted during the protracted exercise of "filing;" as well as by the inattention of teachers to the prompt closing of doors and windows.

But few changes of teachers have occurred during the year past. By the transfer of Miss Gage from the eleventh class

to a similar position in the Greenwood school, the Damon lost an excellent teacher; but Miss White, formerly of the twelfth class, who has had charge of the eleventh since Miss Gage left, has kept that class fully up to the fine condition in which she found it. The large number of children in the twelfth class obliged us to divide it and employ an additional teacher for it. The necessity for this, we expect, will soon cease, as under the new course of study advancements will be more rapid than under the former system.

Generally speaking, the condition of the classes is quite satisfactory, though there are great differences observable between the different rooms. In but one is there a manifest element of insubordination, but in some others there is a noticeable lack of prompt, quick obedience. This matter should engage the earnest attention of teachers, and be remedied as soon as may be. In several classes the deportment, or *morale*, is all that could be desired.

The new course of study, taken up at the beginning of the Fall Term, and the new text-books, introduced at the same time, have thus far worked exceedingly well, particularly where pre-existing prejudices have not tended to restrict the good results. The real progress of the pupils has been better than during the previous year, and the interest greater. A tendency on the part of some teachers to interpolate books and exercises not authorized by the rules, is to be deprecated.

Truancy, and a lack of punctuality, are two prominent defects in this school. It is hoped that parents will supplement the efforts of the teachers to cause a decided improvement in these respects.

One thing which we have observed with disapprobation is the reckless manner of ventilation employed by some teachers in letting drafts of outside air sweep through the room, or beat down on the heads and backs of the children. This matter is particularly mentioned in the rules, and the directions thereon should be scrupulously followed.

Also, too much care cannot be taken by teachers in ascertaining the nature of diseases affecting their scholars, and in vigorously enforcing the rule prohibiting attendance until all danger of infection is past. The sanitary safety of our scholars is of no less importance than their propriety of deportment and proficiency in study.

We are pleased to observe that more of our teachers are availing themselves of the permission to visit other schools one-half day each Term. Occasional observation of well-conducted schools cannot fail to supply some new and useful hints to the watchful visitor.

In conclusion we gladly bear testimony to the very high abilities of most of the teachers in this school, and we recognize in all enough capacity, if rightly and conscientiously employed, to fully supply the requirements of their positions.

We commend the janitor for his faithful and judicious care of the property under his charge.

EDMUND DAVIS,
HENRY HYDE SMITH,
Local Committee.

EVENING SCHOOLS.

Teachers:—Sybel G. Brown, Sarah E. Brown, Mrs. A. M. Merrill.

Evening schools have been established in conformity to the vote of the town. The question of their desirability is not as yet answered fully; the experience of the present time will at best but indicate the possibilities of the future.

In the Damon building a school has been in progress since Nov. 29, 1880. It has shown a growing interest, and constantly improving deportment. Miss Sybel G. Brown of Whately, is the teacher of this school, assisted by Miss Sarah E. Brown, of Hyde Park. They have demonstrated beyond question the capability of woman to govern scholars of advanced age and *rugged manners*. On January 3, 1881, a school commenced in Blake building, with Mrs. A. M. Merrill, of Hyde Park, as teacher. This school has had a small attendance; yet the studious interest and excellent deportment compensate in a great degree for the limited membership. It was unfortunate that this school could not have been established in the Grew building, or nearer the centre of population; it would also have been wiser to have started earlier. These mistakes can, in the future, be avoided. The Grew building was full, and it did not seem just to the teachers and pupils to raid on their premises at night; so

we were forced to the alternative of renting a room or going to the Blake where there was an unoccupied one. The same remark applies to the teacher of this school, as to fitness and capability, that was accorded to the teachers of the Damon evening school. The incidental expenditures for this year were largely to secure permanent benefits, and many of them would be avoided another year.

E. I. HUMPHREY,
Sub-Committee on Evening Schools.

EVERETT SCHOOL.

Teacher — Miss Mary E. Rogers.

During the past year this school has returned to its old home in the little school building on the High School grounds. The change was made necessary by the creation of the advanced grammar class. This change will account for some unusual expenditures.

With regard to the condition of the school at the present time, there is very much to commend and very little to criticise. This makes the work of supervision light and pleasant. The little ones thrive under careful guardianship, illustrating the beauty as well as the utility of culture.

E. I. HUMPHREY,
Local Committee.

GREENWOOD SCHOOL.

Master—J. Langdon Curtis.

Teachers—Harriet J. Folsom, Agnes L. Adams, Alice E. Gage, Ellen M. Farnsworth.

In rendering an account of their stewardship, the Local Committee desire to express their appreciation of the kindly feeling and spirit of co-operation which has existed between the teachers, scholars and parents of the district, and which has contributed so materially to the successful administration of the school.

In view of Mr. Curtis' well-sustained reputation as a thorough and practical educator, we anticipated good results, and have not been disappointed, although his responsibilities have been largely increased by reason of successive reorganizations and the adoption of a revised course of study, with incidental change of text-books.

Early in the present year the committee regretfully accepted the resignations of two of our most popular teachers, Misses Currier and Libby, each of whom had been connected with the school from the time of its organization, in December, 1872. They enter upon the sphere of home life bearing with them the best wishes of all who have known and can testify to their usefulness in the school-room. The vacancies occurred at the close of the winter term. During the vacation which followed an examination of candidates for teachers took place. From the sixteen who reached the prescribed standard your committee selected Mrs. Matilda H. Cushing, a lady of excellent scholarship, who had taught in the Hyde Park schools for a number of years prior to the incorporation of the town, in 1868, and Miss Ellen M. Farnsworth, a graduate of our own High School, who had subsequently had some experience as a teacher in Vermont district schools. It was deemed advisable to place Miss Folsom in charge of Classes VII. and VIII. (formerly Miss Currier's), and Mrs. Cushing was appointed to the vacancy which was thereby created, Classes IX. and X. Miss Adams, who had been for one term in charge of the Twelfth Class, was transferred to Miss Libby's room (Classes X. and XI.), while Miss Farnsworth was assigned to Class XII. A further reorganization occurred at the commencement of the fall term, when Mrs. Cushing was transferred to the Blake School, Miss Adams being assigned to her room (Classes IX. and X.). Miss Alice E. Gage, who had been teaching in the corresponding grade of the Damon School, to the entire satisfaction of its Local Committee, was, with their consent, appointed to the charge of Classes X. and XI., and her success has fully justified the propriety of our choice.

We feel that the school has never been better organized than at the present time, the teachers possessing peculiar qualifications for the work of their several grades; and without particularizing the merits of each, we place on record our commendation of one and all. Both in scholarship and deportment, a high standard has been maintained. A disposition has

been shown to carry out in letter and in spirit the directions and suggestions contained in the recently adopted Course of Study, and a steady improvement in the bi-monthly examinations has been perceptible.

The fact that not a single case of corporal punishment has occurred during the present organization of the school indicates that it is possible to substitute tact and talent for brute force, and for the teacher to maintain discipline, by the exercise of forbearance, love and patience, without an appeal to the rod.

The buildings are in good condition and our expenditure for repairs and improvements has been very modest. We hear some complaint of the remoteness of the school from the centre of population in the district. It is evident that those who selected the site built for the benefit of a prospective increase in the population of the Clarendon Hills section, which has not as yet been realized. But the location is certainly slightly, wholesome and beautiful; and, when funds are provided for the suitable fencing and grading of the grounds, its attractiveness will be very materially enhanced.

HENRY S. BUNTON,
CHARLES G. CHICK,
Local Committee.

GREW SCHOOL.

Master.—Franklin H. Dean.

Teachers.—Fannie J. Emerson, Lucina Dunbar, Mary Morey, Martha A. Alexander, Genevieve Brainard, Leila E. Perry and Florence E. Leadbeater.

In reporting upon this school but little need to be said at the present time, it being almost sufficient to say that the work during the past year fully sustains the good reputation so long held by the Grew School.

The work of the various classes has advanced under very favorable circumstances during the year. No permanent change of teachers has been made; harmony between teachers and pupils has prevailed; no distemper or disease has served to lessen the attendance, or otherwise hinder the work of the school. Truancy has become almost unknown; the discipline has been excellent; the interest shown by

the pupils good and the work of the teachers commendable, all of which has served to render the year one of steady progress and of great value to the pupils of this school.

The new course of study adopted by the Board during the year has been well received by teachers and pupils, and is proving of much advantage in many of its features.

During the spring term, Miss Emerson, teacher of the seventh class, was granted a leave of absence on account of failing health. Efforts were made to procure a substitute of experience to take this class but without success, and Miss Darling, a graduate of our own High School, having passed the required examination by the Board was placed in charge of the school. Her success was creditable to herself and her work satisfactory to the Committee.

The buildings and play-grounds are in good repair and the school well equipped with furniture and apparatus for efficient work. Some expenditure upon the walls around the grounds will be necessary the coming year, as further delay will cause a loss to the town; with this exception, no extra expense will, in our judgment, be needed at this school.

CHARLES G. CHICK,
E. I. HUMPHREY,

Local Committee.

HIGH SCHOOL.

Mr. John F. Elliot, Principal.

Miss Mary M. Coleman, Miss Minnie C. Clark, Assistants.

It is a source of great gratification to state, that, during the past year, there has been no change of teachers in this school; and so the fact corresponds with the presumption, that the instruction and the discipline have been particularly worthy of commendation. Better qualified than ever before, the teachers have been uniformly zealous in their work, and devoted to the best interests of their pupils. The largest freedom of movement essential to enable the scholars faithfully to pursue their studies, as well as heartily to enjoy their pastimes, and a constant wholesome restraint on every tendency to idleness and wrong-doing, are marked characteristics of the government of this school. And so it follows, as a natural sequence, that a firm but gentle control elicits only prompt and cheerful obedience.

The scholars merit high praise for their close attention to study and for the genuine progress they are making in the essentials of sound learning ; and, most of all, are they, with rare exceptions, to be commended for their unvarying sacred regard for truth and honor, as well as for their marked observance of the courtesies and amenities of life.

During the long vacation, a few much-needed repairs were made in and upon the building ; the walks in the school-yard were graded ; the old, decaying terrace steps in front of the building were replaced by substantial new ones ; and the stone wall fronting on Hyde Park avenue, was pointed anew and cemented. This year, the grounds will need additional improvements ; and the building, additional repairs. A supply of pure water for this school, is urgently recommended.

The High School is the crowning excellence of our admirable system of common schools, bringing to the very homes of the humblest and of the highest alike untold benefits and possibilities. Therefore, it well deserves, and should receive, the fostering care and generous support of all our citizens.

HENRY HYDE SMITH,
ANDREW WASHBURN,
EDMUND DAVIS,

Local Committee.

A copy of the rules and regulations, containing also the new course of study and list of text-books adopted for use in the schools, may be obtained by parents on application to

EDMUND DAVIS,

Secretary of the Board.
